[Matias Muñoz](#)

I have been dedicated to web development for 5 years. I stand out for my dedication and discipline when it comes to learning new technologies, as well as my ability to tackle big challenges. In the last 2 years, I have significantly strengthened my skills with the MERN stack, developing large projects entirely on my own, including 2 e-commerce websites! These projects have given me the confidence to face any challenge. You can find them in my portfolio.

SKILLS

Frontend: Next.js, React, Tailwind CSS, HTML, CSS

Backend: Express, Node.js, MongoDB, JavaScript

Cloud Services: Vercel, AWS Amplify, AWS EC2

Development Tools: Visual Studio Code, Git, GitHub

EXPERIENCE

Kowy Store e-commerce

Clothing E-commerce with Administrative Dashboard in Next.js

- User registration and authentication: Password management with JWT and bcrypt.
- Product search and navigation: Users can search for products by category.
- Shopping cart: Users can add products to the cart and proceed to secure checkout with Mercado Pago.
- Order management: Users can view the status of their orders and access their purchase history.
- Responsive user interface: The application design automatically adjusts to different devices and screen sizes for a consistent user experience.
- Administrative Dashboard: Product management, Order tracking, and User Analytics

Beats Dealer e-commerce

Online store for selling instrumentals (Mini BeatStars)."

- Implementation of REST APIs, microservices development, and authentication and password management using JWT and bcrypt.
- Comprehensive Development: Responsible for all development phases, from database design to frontend and dashboard implementation.
- Integration of Cloudinary and S3 for image and MP3 file management.
- UX/UI Design: Development of interface designs for frontend and dashboard, enhancing usability and aesthetics.
- Implementation of MercadoPago payment gateway for secure and efficient transactions.
